Description

Specification

Reviews (0)

Air variable capacitor for F1FRV power amplifier . Capacitance 24 - 840 pF. Made in Ukraine from high quality parts. High grade ceramic insulator.

Specifications:

- Insulators - ceramics;
- The plates are made of aluminum 0.8mm;
- Current collector made of beryllium bronze;
- The remaining parts - aluminum, brass, galvanized steel.

Characteristics:

- Capacitance: 24 - 840 pF;
- Plate spacing: 1.0 mm;
- Maximum voltage: 1350 Vrms;
- Axle diameter: 6 mm, length: 32 mm;
- Dimensions: 150x77x82 mm
