

Design was made with 2N7000.

on PCBs, silkscreen are made for them.

if you want to use BS170, less expensive and more performant

INVERT S & D in placing them in PCB

as pinout is inverted.

see files [2N7000_vs_BS170_SOA.pdf](#) and [2N7000 & BS170.pdf](#)
